Commentary on Use of LLM Output

Section	Action Taken	Rationale
Headings & order	<i>Re-used verbatim.</i>	Provided a logical flow that already matched the assignment rubric.
About Me	<i>Re-wrote.</i>	Added concrete impact focus

paragraph		("data-driven insights" & "underserved communities") and personalized tone.
Education & Experience	<i>Expanded.</i>	Inserted formal institution names, exact year spans, company locations, and role highlights for authenticity and accuracy.
Certifications	<i>Kept titles; added interactivity.</i>	LLM titles were correct. I replaced the plain list with Bootstrap modals so reviewers can view full-size certificate images without leaving the page.
Skills list	<i>Condensed & grouped.</i>	Removed duplicates, merged related items, and prioritized top strengths relevant to MBA placement.
Discarded suggestions	Omitted an LLM-proposed "Volunteer Experience" placeholder and a generic "Hobbies" line because they were not applicable and would dilute focus.
